

## **Job Description**

The SABIC Technology Center, part of SABIC Americas Inc., a wholly owned subsidiary of the Saudi Basic Industries Corporation, is currently seeking qualified technical staff for exploratory research into the conversion of petrochemical feedstocks to commodity chemicals. SABIC has an opening for the following position at its Technology Center in Sugar Land, TX:

### **Research Scientist (PhD)-Entry Level**

We are looking for candidates who have recently obtained or will soon obtain a PhD degree in Chemistry or Chemical Engineering. Applicants should have a background in heterogeneous catalysis or related areas. A successful candidate will join a small, highly-focused project team whose goal is the development of new catalytic technology. The research may involve utilizing new routes and/or feedstocks requiring significant departures from existing commercial chemistry. Successful candidates will need to demonstrate creativity, excellent communications skills, and willingness to be a team player.

SABIC is one of the largest chemical companies in the world with annual sales of about \$19 billion. It is owned principally by the government of Saudi Arabia, and almost all of its facilities, including its main R&D laboratory, are situated in that country. It manufactures commodity chemicals and polymers on a world scale from petrochemical feedstocks using up-to-date technologies.

During 1997, SABIC opened a satellite Technology Center in Texas. The mission of the center continues to be front-end research on catalytic processes leading to commodity chemicals. STC employees enjoy an unusual work environment in which the closeness of a small technical group is combined with the financial strength of a major global company.

The SABIC Technology Center is located on an attractive 25 acre green site in Sugar Land, Texas, a suburb of Houston, and is close to pleasant residential areas with excellent schools. SABIC employees enjoy competitive salaries and benefits that exceed industry standards.

SABIC Americas, Inc. is an Equal Opportunity Employer.
